Application for Assistant Professor Computer Science

Dear Hiring Manager,

I wish to apply for the position of Assistant Professor as advertised. I have the necessary skills and qualifications for this post, as well as the necessary experience. I therefore believe that what I have to offer to Saintgits will be of great benefit to the college.

I am a postgraduate in Computer and Information Science with 8.65 Cgpa and I took my graduation in Computer Science with 7.53 Cgpa from CUSAT university. I have published 3 journals in different publications.

I have total 1 year and 10 months teaching experience. I started working as a computer teacher in a private iti for 1 year then after working as an assistant Professor at BCM college kottayam for 3 months. Finally, I taught in Government engineering college Idukki for 7 months. All this time I established a very good working relationship with the staff, as well as with the students.

To boost my programming skill, I have completed 2 online courses “Python full stack development using Django frame work” and” Red hat System engineering course”.

I take a friendly approach to teaching, believing that my students are simply equals who have yet to gain the knowledge I can impart to them. I find this approach helps to break traditional “them” and “us” type barriers between students and their tutors.

I also feel that the students gain more as a result of using this approach, not to mention the satisfaction that the teacher can also gain. I was highly thought of in my previous post, and I know I can repeat my standard of professionalism at Saintgits College as well.

I may be contacted at 9645245580, or by email at [prettyjoy2011@gmail.com](mailto:prettyjoy2011@gmail.com). I look forward to the opportunity of meeting you at interview level, and I thank you for the opportunity to be considered for the post of Assistant Professor.

Yours Sincerely,

Pretty Joy
